## Your First Appointment

Please register with the front desk receptionist. She will ask you to turn in or complete a patient medical and dental history form. It is very important for this information to be complete. In order to file an insurance claim for your services, be sure to bring your dental insurance card if applicable, and any other information important for your claim.

## Billing Procedures

Our practice participates with a variety of insurance plans. We will gladly submit claims to primary insurance plans. If you have secondary insurance coverage, upon request our billing office will provide you with a form of itemized charges that you can use to file under that plan.

As a convenience to our patients, we accept Visa, MasterCard, and Discover for payment of services. We also have a variety of options to finance treatment, including a no down payment option.

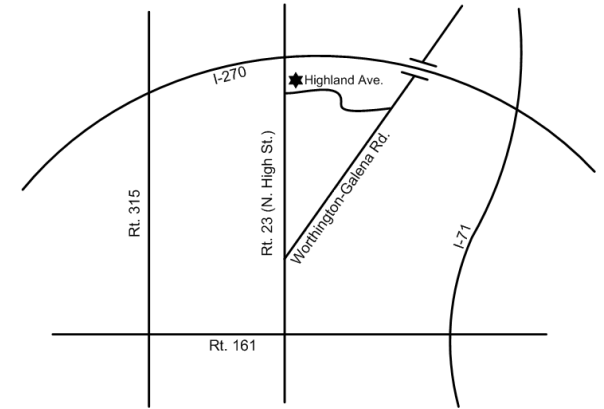

## The New Patient Examination

Dr. McDevitt will begin the examination by reviewing the medical and dental history information. Dr. McDevitt will examine your or your child's profile, smile, teeth and bite. She will, if it is needed, recommend treatment and also give you an estimated fee.

We value your time and work hard to stay on schedule, but the doctor is sometimes interrupted by emergencies. We ask for your patience if this should occur during your visit. Please remember that you will receive the same thorough attention when you are seen.
